I really want to like this game, but it's so poorly made.

The graphics are authentically retro and so is the music, but it's also too quiet.

The level design is awful. All the enemies are clumped together in one big open space, giving you very little vantage points to take out enemies individually, and you'll run out of ammo quickly if you try to take them all on at once from a distance and you'll quickly die if you try to take them on up close.. Old but gold!. A text based game with potential

click n move gameplay

good time killer

3/5. Fun little asteroids type achievement hunter game. the 50 or so cents you'll pay for it on sale is well worth the price imo for an hour or two of amusement. Not gonna blow your mind or have ya telling your friends its the best game ever but certainly isn't gonna leave ya dissapointed you burned a buck on it.. its♥♥♥♥♥balls dont buy

Game puzzle with nice music and hentai images can be improved but good for the price is good in general.. It's a good short little game apart from everytime I go to pick up screws the game lags is this just me or do others have this problem?. I really liked the demo so i bought the full version and it has more content and more to come so its great :P. i love this its perfect and get it on sale its a nice dlc to have cause u get a nice kickstart and an exclusive cosmetic so its not like u couldve gotten it without paying plus u got the most popular most expensive skin container and two camos and the nice premium currencys and an overload of regular currency i reccomend for people that want to get a really op turret or tank or something but end up short on currencys and want to look beastly this is the perfect one to get closer to ur dreams. Wow! I was looking for a Super NES Classic so I can play Ghouls & Ghosts, but now I don't have to. This game is amazing! Thank you so much for making it!. **THIS IS NOT GAME YOU ARE LOKING FOR !!!!!!!!!!!!!!!**. I got to admit, it's difficult, but it's fair if you have the skill and patience to master the challenge of both the map and the controls, other wise, don't get screwed by the timing and placement of the obstacles, also nice music and background.. Good tower defense. Has grasshoppers - nightmare stuff...

Looks simple, but easily one of the better TDs available. Each tower also has an ability if you invest in them enough.

8V10!. Heckabomb

fast game with modern day graphics with easy controls that moves from location A to B to C and so on.

good game.

Personal Suggested Purchase Price: \$0.49 Or Less During Sale
