Let the software do the work, and don't have to deal with learning a complex program.. Dec 17, 2009 Two prototype jewelry designs with rough samples, that I sent to a local jeweler for 3d printing by ArtSence. Both designs were created using Rhino Jewelry Designer 5.0. Using this software allowed me to make a prototype of the jewelry design, and then take it to a jeweler to get their feedback in person.
