EDIT IT IS ANOYING YOU CANT HAVE YOUTUBE VIDEOS PLAYING IN THE BACKGROUND I AM JUST 1 AWAY FROM A DISLIKE AND THIS MADE THE 1. This game is an awsome worldV peaceful game, it has great graphics and good music, too bad there wasn't any action or stuff but other than that it's a great game, another thing is there should be some auto translators like you put the line in the notebook into the translator and it says what it means, like you have to press all the symbols until you get to the right one, but other than that, it was pretty much worth it. A dark little game with an eerie atmosphere that draws you in deeper.

Was a little disappointed by the dated graphics, as they were a little low res for my liking.

If you are a fan of psychological, and escape room style games, then this is worth checking out. Plus it is FREE.

Full Disclosure: I did not do that great at it.

Don't take my word for it, and check out my video by clicking on the link.

This game is great. Completely underrated in my opinion. It has everything you need for a good arcade game: Top-down perspective, guns, and explosions. You know what else has explosions? America. You know what rhymes with America? Pineapple Smash Crew. Buy this to support America.. It doesnt look like its on the picture.... A very unique and interesting roguelike! I highly recommend it. The developer updates quite a lot and its a great value at only 1.99 full price!. Not enough servers and if you get in a game, its friends playing together and they kick you. Worst multiplayer ever and difficult to set bots. cool sandbox but no way to play multiplayer. I Really love this game,soo Much Fun and it gets better with each patch. Then Multiplayer will be availble its gone be even more fun.

Playing with friends and trying to get the Best of them is always the most fun.

As a long time gamer on all them other guild games i can say iam really Happy with this one.

It still lack some of them Old fun things,but i hope they will get in later as a dlc or something.

This game tend to be a bit laggish after some time.

It still need a lot of fixes and Love,but iam sure its gone be Great in the End.

. Very broken game. Works for approximately 10 minutes before you can no longer interact with objects.

It's a shame, I enjoyed Challenger.. Game of every year!. I really enjoyed the game, it was really fun. I like how the game can run completely fine and smooth even on a non-gaming laptop, and I even love how some EDM songs were put because it enhances the neon vibes and gameplay.
